Hopping into Spring!!!

We have made it through winter and boy did we get lucky with hardly any snow and nice temperatures! Now we are moving into our favorite seasons, spring, and summer! The thought of it has already brought so many smiles to so many faces, we are excited to start prepping for these warm days ahead. We will be having a little Easter Egg Hunt for the residents and families to enjoy as well as coloring some eggs! A lot will be going on at our campus this summer with lots of positive updates on many different things such as painting the insides of the buildings, new décor, outside railings will be updated, new flowers which some of the residents have already said they would like to help and be a part of, painting the patio furniture, etc. We are excited to get started on bringing our campus back to life! Our goal here is to get the residents outside as much as possible and be involved in transforming their home while also enjoying the beautiful weather!
